

# e-Learning Content and Tools

## Product Description:

**Content** - Over 200 "off-the shelf" titles including OSHA safety and compliance training, trade skills (i.e. automotive mechanics, welding) and school to work series. Each course contains a training management system often referred to as a Learning Management System and is easily modified to include specific company and site information.

**Stars and Training Manager** - Is administrative software that provides all the tracking and reporting functions for your training programs. For example, this can be used to automate record keeping requirements for OSHA. Reporting includes time on task, pre-test and post-test scoring, and records by individual, supervisor, plant or company to name a few.

**Modify** - Is software that allows you to create your own courses or modify any "off-the shelf" courses with your own company specific information.

### CONTENT

#### Features:

- Deliverable in multiple formats
- Ability to add company or site specific information
- Full screen, full motion video
- Multiple languages
- Closed captioning

#### Benefits:

- Improves productivity
- Potential reduction in liability
- Reduces travel and entertainment costs
- Better use of resources, including personnel, information and technology
- Consistent and timely delivery of training

### STARS and Training Manager – Learning Management System

#### Features:

- Maintain records over networks
- Writes records to a single system, regardless of the way the course was delivered (e.g., CD-ROM Internet)
- Manages all administrative and reporting functions
- Maintain OSHA training logs

#### Benefits:

- Reduces administration
- Improves productivity
- Efficient scheduling
- Lowers costs
- Consistent and timely delivery of training

### MODIFY

#### Features:

- Insert audio, video, images
- Delete non-essential material
- Add your own quiz questions

#### Benefits:

- Allows you to tailor courses to fit your needs
- Teach your work procedures
- Describe your policies
